Enrichment 18C: SUSTAINED PRACTICE: NUMBERS

Michael learned through firsthand experience last week that the cost of a week at the beach varies a great deal. He says that a rowboat would be about right for his money.

His Uncle Bo told him that when he was his age, he had rented a small cabin for the huge sum of \$105 for one week. For \$23 more, he rented a small boat and outboard motor.

Then Uncle Bo went on to say that when he rented the same cabin last year, the cost had gone up to either \$395 or \$410. Boat and motor rentals now cost from \$62 to \$87.

Aunt Kate said that she and her husband will be paying either \$1,946 or \$2,073 for a week's sailing on the 53-foot yacht. The boat has a 4-person crew and was built in 2006.

Enrichment 18D: PACED PRACTICE

Follow the GDP software directions for this exercise to improve keystroking speed and accuracy. Once this lesson is completed in GDP, you are finished with this portion.

Enrichment 18E: PARAGRAPH TYPING

I saw five or six of the big jet planes zoom quickly over an old tower by the side of the road. They were flying in formation and created a beautiful display for everyone.

Brown jars of an acidic mixture prevented the solution from freezing so quickly. It took about four days for it to freeze solid; then we could store it in the lab's freezer.
